OUR WORK TOGETHER

The North Carolina long-term care community began its relationship with JFRF and the elders of Nicaragua in 2006. This partnership has had a tremendous impact on the quality of life of many elders throughout Nicaragua as well as the staff who care for them. Several of our partners have traveled to Nicaragua and witnessed this impact in person.

WHO WE ARE

JFRF has tackled issues impacting elders living in poverty for over two decades. Our goal is to help bridge the gap for older adults, families, and communities as we support strategies to address the changing face of aging.

All proceeds of the annual golf tournament go to JFRF's programs benefiting indigent elders in Nicaragua.
